Front End Developer

Summary

A proactive, results-oriented web developer with a successful track record in creating innovative designs and features. Possessing solid expertise in HTML, CSS, JavaScript, and React, with a quick learning aptitude for new technologies. Demonstrating success in resolving complex code issues, I am a logical and results-driven professional dedicated to building user-focused websites, apps, and platforms. My aim is to enhance competitive advantage and drive revenue growth.

Completed Projects

Checkup E-commerce

Reactjs, TailwindCSS , Firebase, Typescript

2023 - 2023

- Developed a full-stack application, encompassing both the client and server aspects.
- Firebase server as the backend to retrieve data, and firebase authentication ensures users log in before accessing the product shoes.
- In this contemporary project, I've developed a function that retrieves shoes based on what's currently visible on the user's screen. Numerous shoes are sourced from the Firebase backend API
- The platform allow users to filter products, such as Puma and Nike shoes, and features delightful animation and intricate gradient.

Modern Hook Bank

Reactjs, TailwindCSS

2023 - 2023

- Developed a client-server application.
- Added lazy load image this will increase App performance by 35% to 40%.
- Responsive and user-friendly UI/UX.

Gericht Restaurant
